RE: Nevada Republican State Central Committee
FEC ID# C00082925
September Monthly (8/1/4 -8/31/4)

Dear Ms. Adams:

We are in receipt of your letter dated December 17, 2004 regarding the aforementioned report.

On Schedule A for contributions received from partnerships, these were contributions received from the Joint Fundraising Committee and they have been unable to obtain this information at this time. As soon as the information is acquired we will amend this report to reflect this information correctly.

The itemized disbursements for "voter registration" and "voter registration/generic" now reflect more detailed descriptions.

Schedule B for the disbursements for "postage/BRM" this has also been expanded in description; this was a noncandidate specific mailing. The disbursement for "postage" was noncandidate specific mailing nor does it meet the definition of public communication.

Schedule A Line 12 regarding transfers from The National Republican Congressional Committee, none of these funds were used for any federal election activity or any candidate specific activities. Our committee keeps separate bank accounts for monies received that are FEA eligible funds and transferred funds and disbursements from those accounts are made according to the permissible nature of the expenditure.

Please note that Schedule D has been corrected as well. In review of this amendment it appears that the payment to Direct Mail Systems on 8/1 for \$3362.04 was not reflected on the previous original or amended report which gave a debt total of \$59097.37. This amendment reflects on Schedule D the payment made on 8/1/4 to Direct Mail and the corrected debt total of \$55735.33.

At this time our committee believes to be in compliance.

Sincerely,

Chrissie Hastie
